NOTIFICATION

Addendum

The following communication was received from the United States on 4 April 2000.

The Food and Drug Administration (FDA) is announcing the availability of certain new adverse event reports (AER's) and related information, the vast majority of which were received after publication of the proposed rulemaking on dietary supplements containing ephedrine alkaloids. The agency is also announcing its intention to participate in a public forum to address this new information. This document is being issued to ensure that interested persons are aware of the new information the agency has available on these products and its plans to seek public input on this new information. Elsewhere in this issue of the Federal Register, FDA is withdrawing certain provisions of the proposed rule on dietary supplements containing ephedrine alkaloids and making available certain documents to update the administrative docket of that proposal. Submit written comments by 18 May 2000.
