NATIONAL EXPERIENCE WITH THE AGREEMENT ON PRESHPMENT INSPECTION

Communication from Cameroon

The following communication has been received from the Permanent Mission of Cameroon on 25 September 1997.

Cameroon wishes to inform you and all the participants in the Working Party that Cameroon endorses and supports, owing to its fruitful experience to date with the Société Générale de Surveillance (SGS), the positions of the other countries that use preshipment inspection (Ghana, Côte d'Ivoire, Peru and Philippines).

Inspection companies, in particular the SGS, make a positive contribution to our countries' budgets.
