STATISTICAL REPORT FOR 1999 ON PUBLIC PROCUREMENT ACCORDING TO THE AGREEMENT ON GOVERNMENT PROCUREMENT

NORWAY

The following communication contains the Norwegian statistical report on public procurement for 1999. The report shows the value of public contracts subdivided by type (supplies, works or services) and by procedure (open, restricted and negotiated). There are also indications on nationality of the suppliers and products. A listing by CPV numbers on a two-digit level is also included in the statistical report presented.

The statistical material is based on information from TED (Tenders Electronic Daily) where 410 contract awards with a total value of Nkr 9 billion were found. The statistical material indicates that about five per cent of the contracts were awarded to foreign suppliers. The actual figure is, however, higher because of the number of Norwegian suppliers that are subsidiaries of foreign companies, or agents for foreign companies is unknown.

I. BACKGROUND

This Statistical Report on Public Procurement under the Agreement on Government Procurement (GPA) includes the number and value of contracts awarded by each contracting authority above threshold in 1999, divided into two groups: classical sector and utility sector. The classical sector includes procuring entities listed in Annexes 1 and 2 to the GPA. The utility sector includes procuring entities listed in Annex 3 to the GPA.

The report is divided by CPV codes and type of procurement (supplies, services and works). Each type of procurement is further subdivided by procedure and with indication of product and nationality of the supplier to whom the contract was awarded as far as the source material permits.

II. METHOD

Contracting authorities that have awarded a contract above thresholds, shall make results known by means of a notice published in the Official Journal of the European Commission and in the Tenders Electronic Daily (TED) database. In order to present all contracts awarded in Norway in 1999, a printout from TED 1999 was made. All contracts awarded in 1999 were divided as follows:

- | | |
|----------------------------------|-------------------|
| • Supply contracts | Listed in Annex 1 |
| • Service contracts | Listed in Annex 2 |
| • Works contracts | Listed in Annex 3 |
| • Classical sector by CPV Number | Listed in Annex 4 |
| • Utilities sector | Listed in Annex 5 |
| • Utilities sector by CPV Number | Listed in Annex 6 |

1. Total

This statistical report contains 410 contract awards with a total value of Nkr 9 billion.

Of the 410 contract awards, there were:

- 167 supply contracts, with a total contract value of Nkr 3,438 million

- 113 service contracts, with a total contract value of Nkr 2,482 million
- 84 works contracts, with a total contract value of Nkr 2,226 million
- 101 utilities contracts, with a total contract value of Nkr 447 million.

2. Supply contracts (Annex 1)

The 167 supplies contract awards given by 68 contracting authorities had a **total value of Nkr 2,121 million**. Approximately five per cent of the contracts were awarded directly to foreign suppliers. The foreign suppliers are mainly located in northern Europe.

Of the supply contracts, 146 contracts were awarded by open procedure, accounting for 91.3 per cent of the value of supply contracts; nine contracts were awarded by restricted procedure, accounting for 1.4 per cent of the value of supply contracts; and 16 contracts were awarded by negotiated procedure, accounting for 7.2 per cent of the value of supply contracts.

3. Service contracts (Annex 2)

A total of 58 contracting authorities awarded 113 service contracts with a **total value of Nkr 2,983 million**. One contract was awarded directly to foreign suppliers from Denmark and the United Kingdom. The rest were awarded to suppliers with a postal address within Norway. Of the 113 contracts, 73 contracts were awarded by open procedure, representing 66 per cent of the total value of service contracts; 17 contracts were awarded through restricted procedure, accounting for three per cent of the value of service contracts; and 24 contracts were awarded through negotiated procedure, accounting for 31 per cent of the value of service contracts.

4. Works contracts (Annex 3)

A total of 17 contracting authorities awarded 85 works contracts with a **total value of Nkr 2,539 million**. The contracts were awarded to suppliers with a postal address within Norway. Of the 85 contracts, 77 contracts were awarded by open procedure, representing 95 per cent of the total value of works contracts; four were awarded through restricted procedure, accounting for 2.3 per cent of the value of works contracts; and four contracts were awarded through negotiated procedure; accounting for 2.3 per cent of the value of works contracts.

5. Utility contracts (Annexes 5 and 6)

The 101 utility contract awards published in TED were awarded by 18 contracting authorities, and have a **total value of Nkr 1,862 million**. Twenty-nine contracts were awarded using open procedure and accounts for 60.4 per cent of the total number. Restricted procedure was used in 17 cases, consisting of 10.9 per cent of the total value, and 36 contracts were awarded using the negotiated procedure, representing 28.6 per cent of the total value of the contracts awarded.

III. COMMENTS

1. Supplier nationality

Many contract awards have more than one supplier, and some of the contracts have more than one nationality of suppliers. In the statistics, all nationalities have been noted regardless of how large a part they were awarded respectively.

Only a small percentage of the contracts in the classical sector were awarded to suppliers with a foreign postal address. This figure is, however, somewhat misleading considering the number of Norwegian suppliers who are subsidiaries of foreign companies or agents for foreign suppliers.

2. Public works contracts under threshold

Many of the public works contracts published in TED are below the thresholds as they are part of a larger project. There is usually no indication in the notice in TED as to which main project these contract awards belong to, or whether the subcontract is included in the main project or not.

3. Prices and estimated value

All prices are given in Norwegian kroner (Nkr), excluding "Merverdi avgift" (VAT).

Some contract awards do not state the price. Contracting authorities in the utilities sector are not obliged to state the contract value in post contract award notices. Contracting authorities in the classical sector may postpone publishing the contract value to guard commercial interests.

4. Listing of contracts by CPV number

Of the contracts awarded by the classical sector, all contracts were not assigned to a CPV number. Thus, the summing of contracts in Annex 4 will not add up completely with the total number of contracts reported in Annexes 1 to 3.
