**Note:**

<sup>14</sup> The State procurement price. There is a voluntary state contract procurement system for the major grains and cash crops in China. Farmers and State commercial departments are to negotiate purchase contracts before the planting season at the weighted average quota and above quota prices (State procurement price), which are set by government.

<sup>15</sup> The quantity of agricultural products procured by the State commercial departments (such as the state-owned grain agencies and the supply and marketing cooperatives) at the State-fixed procurement price.

<sup>16</sup> The negotiation price. State purchase grains at quota prices (the negotiation prices ) which are announced by government.

<sup>17</sup> The quantity of grains purchase by the state-owned grain agencies at the negotiation price.

<sup>18</sup> The external reference price for the net imported goods (c.i.f.) such as wheat (1993, 1994, 1995), rice and maize (1995), others (1993 to 1995) equals to the import value of a commodity divided by its quantity imported; while the external reference price for the net exported goods (f.o.b.) such as rice (1993, 1994), maize (1993, 1994), soybean (1993, 1994, 1995) can be calculated after division of the export value of a commodity by its quantity exported. The data recalculated in this table are provided by the Customs. The exchange rates are, 1993: 5.7619 yuan per US dollar, 1994: 8.6187, 1995: 8.3507, respectively.

**Data sources:**

(1) Data in columns 4 and 6 from: MOA (Ministry of Agriculture), China Agricultural Development Report, 1996.

(2) Data in columns 5 and 7 from: MDT (Ministry of Domestic Trade), Domestic Trade Yearbook of China.

(3) Data in column 8 recalculated based on the General Administration of Customs, Customs Statistical Yearbook of China.
