

**FREE TRADE AGREEMENT BETWEEN GEORGIA AND  
THE RUSSIAN FEDERATION**

Questions and Replies

This document reproduces questions addressed to Georgia and the responses submitted. The questions and replies set out below are organized in accordance with document WT/REG118/3.

**I. BACKGROUND INFORMATION ON THE AGREEMENT**

**3. Scope**

**The text of some of the agreements refer to services, capital and labour. Can Georgia clarify what is meant by the word "services" in these agreements? Does any of them cover services? If so, have they been notified to the Council for Trade in Services?**

The FTA between Georgia and Kyrgyz Republic was designed to be quite general in scope, the Articles of the Agreement do not make any reference to service, movement of capital and labor itself. Virtually the mentioned Agreement covers only trade in goods. At the same time the draft of the "Agreement between CIS countries on liberalization of trade in services" is in the process of consideration.

**4. Trade Data**

**We note that trade data had been provided only with respect to imports into Georgia, but were missing for the other Parties to the Agreements, which are not WTO Members. It would be appreciated if data could still be provided for the other Parties. If that is not possible, please provide export data from Georgia into those various countries, in the same format as the data provided concerning imports.**

Concerning the additional export trade data, please see below.

Georgia-Russian Trade turnover  
(in million US\$)

Year	Turnover	Export	Import	Balance
1995	95.2	46.8	48.4	-1.6

## II. TRADE PROVISIONS

### 1. Import Restrictions

Please provide copies of the protocols of exemptions in the Georgia-Russian Federation. Please indicate whether any progress has taken place towards the elimination of existing exemptions. Please provide further statistical information on the trade covered by the exemptions *vis-à-vis* the Georgia-Russian Federation agreement.

Referring to the request of WTO Member countries concerning the consideration of Protocol on exemption from Free Trade Agreement between the Government of Republic of Georgia and the Government of Russian Federation, copy of mentioned protocol is attached (see Attachment 1).

In addition to above said the statistical information on trade covered by the exemptions with the Russian Federation is the following:

Georgia - Exports of Products Exempted from Free Trade Regime to the Russian Federation  
(in US\$)

HS Code	Product description	2000	2001

2203	Beer made from malt.	-	21,846

The up-mentioned protocol has not been ratified by Georgian side yet, however the Russian federation has entered it into force.

### 3. Rules of Origin

**We note that the description of the rules of origin in the FTA between Georgia and Ukraine is different from that provided for the FTA between Georgia and the Russian Federation. Are differences still in place, or have the rules of origin criteria been harmonized?**

**Does the CIS harmonized system provides for some sort of cumulation of origin scheme?**

Information on Rules of Origin is contained in Attachment 2.

ATTACHMENT 1

**Protocol on Exceptions from Free Trade Regime to the Agreement between the  
Government of the Republic of Georgia and the Government of the Russian Federation  
signed on 3 February 1994**

The Government of the Republic of Georgia and the Government of the Russian Federation, hereinafter referred to as the "Parties"

Have agreed as follows:

*Article 1*

Exceptions envisaged in Article 1 of the Agreement on Free Trade between the government of the Republic of Georgia and the government of the Russian Federation signed on February 3, 1994 (hereinafter referred to as the Free Trade Agreement) shall apply to the:

- Goods, subject to the Georgian legislation on export duties and licensing of export of goods (work and service), effective at the time of customs clearance of the goods exported from the Republic of Georgia to the Russian Federation (At the moment of signing the present Protocol the resolution N 267 of May 31, 1993 of the government of the Republic of Georgia shall be in force).
- Goods, subject to the Russian legislation on export duties and licensing and quotation of export of goods (work and service), effective at the time of customs clearance of the goods exported from the Russian Federation to the Republic of Georgia (At the moment of signing the present Protocol the following resolutions shall be in force: Resolution N 1103 of October 30, 1993 "on establishment of rates for export and customs duties and a list of goods to which they shall apply" adopted by the Council of Ministers of the government of the Russian Federation; Resolution N 854 of November 6, 1992 of the government of the Russian Federation "on licensing and quotation of export and import of goods (work, service) in the territory of the Russian Federation" and Resolution N 1102 of November 2, 1993 of the Council of Ministers of the government of the Russian Federation "on liberalization of foreign-economic activity" with the follow-up amendments).

The Parties shall exchange, on regular basis, the information concerning the changes to the domestic legislation on the above-mentioned issues.

*Article 2*

Concerning the goods subject to tariff and non-tariff export restrictions in accordance with Article 1 of the present Protocol, the Parties shall grant each other the MFN treatment concerning the following:

- (a) customs duties and taxes on exported goods, including the methods of imposing such duties and taxes;
- (b) procedures and regulations in connection with export (import) of goods, including those related to the customs clearance, transit, warehousing and shipment of these goods;
- (c) taxes and all kinds of domestic charges directly or indirectly connected with the importation or exportation of goods;

- (d) regulations of selling, purchasing, transporting, distributing and using the goods at the domestic market;
- (e) means of payment transference.

*Article 3*

The provisions of Article 2 of the present Protocol shall not apply in respect of preferences and privileges granted by each Party to:

- (a) the third countries with a view of creation of a customs union, or a free trade area or as a result of creation of such union or area;
- (b) to the developing countries on the basis of international treaties.

*Article 4*

The Parties shall not impose export duties on goods supplied for governmental purpose on the clearing or interdependent basis, according to the intergovernmental agreement on trade-economical cooperation of 1994.

*Article 5*

The Present Protocol is considered to be the integral part of the Free Trade Agreement.

*Article 6*

The present Protocol shall come into force from the date of its signing and shall be effective until the enactment of a new protocol, envisaged in Article 1 of the Free Trade Agreement.

Done in Moscow, on 11 May 1994 in two originals, each in the Georgian and Russian languages. All texts are equally authentic.

ATTACHMENT 2<sup>1</sup>

**Commonwealth of Independent States  
Economic Council**

**DECISION  
of 6 September 2000, the city of Moscow**

**On Project of List of Terms, Production and Technological Operations, Under Which Goods  
are Considered to be Originated in the country in which the operations were implemented, -  
Annex 1 to the project of the Rules of Determination of A Country of Origin of Goods**

The CIS Economic Council

*has decided:*

1. To approve the following documents:
  - Project of the list of terms, production and technological operations, under which goods are considered to be originated in the country in which the operations were implemented,
  - Annex 1 to the project of the rules of determination of a country of origin of goods, submitted by the Joint Department of the Free Trade Zone of the CIS Executive Committee and considered by the Commission for Economic Issues;
  - Precise project of decision of the Council of the CIS Heads of Governments on the Rules of Determination of a Country of Origin of Goods (enclosed).
2. To submit the mentioned documents to the Council of the CIS Heads of Governments for consideration.

Chairman of the CIS Economic Council:  
L Kozik

**Special Opinion of the Russian Federation  
On item 4 of the agenda of the CIS Economic Council**

The Russian Federation completely supports the project of the list of terms, production and technological operations, under which goods are considered to be originated in the country in which the operations were implemented, - Annex 1 to the project of the rules of determination of a country of origin of goods.

For all this the Russian party considers it necessary to maintain, according to 1701 position, the current rule of determination of a country of origin of white sugar, manufactured from raw sugar, i.e. the rule of change of trade position, according to ТН ВЭД, at the level at least of one from the first 4 marks.

Plenipotentiary of the Russian Federation At the Commission for Economic Issues Under the CIS Economic Council:  
A.Smironov

**Reservation of the Russian Federation On Item 2 of Agenda of Meeting of**

---

<sup>1</sup> In English only.

**The Council of the CIS Heads of Governments of 30 November 2000**

**On the Rules of Determination of a Country of Origin of Goods**

"The Russian Federation, guiding by the criteria of sufficiency of processing the goods, fixed in the Rules of Determination of a Country of Origin of Goods, retains the right to apply, in compliance with the 1701 (Code CIS TH БЭД) position, to the current rule of determination of a country of origin of white sugar, manufactured from raw sugar, the main term of which is change of trade position at the level of any of the first four marks".

Chairman of the Government Of the Russian Federation:

M. Kasyanov

**Decision Conclusion on  
Rules of Determination of a Country of Origin of Goods**

The Council of Heads of Governments of the Commonwealth of Independent States with a view to developing the foreign economic activity of states - members of the Commonwealth of Independent States,

*has decided:*

1. To establish the rules of determination of a country of origin of goods (enclosed).
2. In case of necessity to grant the Economic Council of the CIS the right to introduce changes and amendments to the list of terms, production and technological operations, during the implementation of which the goods are considered to be originated in the country where the operations were carried out (annex 1 to the present Rules).
3. The present decision enters into force from the day of its signing, and for the states, the legislation of which requires the implementation of intrastate procedures necessary for its entrance into force - from the day of depositing of the notification on implementation of the aforesaid procedures.
4. To consider the Decision of the Council of the CIS Heads of Governments of 24 September 1993 on determination of a country of origin of goods to be invalid upon entrance into force of the present Decision.

Done in the city of Minsk on 30 November 2000 in one original in the Russian language. The original is kept at the CIS Executive Committee. The Committee will forward its confirmed copy to every State, a signatory to the present Decision.

on determination of a country of origin of goods of 30 November 2000

### **Rules on Determination of a Country of Origin of Goods**

The presents Rules are applied to the goods, originated in states - parties to the Agreement on creation of free trade zone of 15 April 1994 and Protocol on Introduction of Changes and Amendments in the mentioned Agreement of 2 April 1999 (hereinafter referred to as the state-parties to the Agreement) and being in the trade turnover between these states.

The Rules on determination of a country of origin of goods, imported to the customs territories of the states-parties to the Agreement from the third states and exported to the third states from these states are regulated by the national Legislation of the states -parties to the Agreement and international treaties.

For the purposes of the present Rules the following terms shall be used:

*"Country of origin of goods"* - a country in which goods were completely produced or underwent the sufficient processing/treatment;

*"Criterion of sufficient processing/treatment"* one of the principles of the determination of a country of origin of goods in compliance with which the goods, in production of which two or more countries are involved, are considered to be originated from a country, where goods underwent final sufficient processing/treatment necessary for granting the goods its characteristics.

The cumulative principle in compliance with which the origin of goods as a result of consecutive processing/treatment in states-parties to the Agreement is determined according the state of production of final goods may used for the estimation of a criterion of sufficient processing/treatment;

*"Goods"* - any movable property, including thermal, electric and other types of energy and transport facilities (except transport facilities, used for the international transportation of passengers and goods), transported through the customs border;

*"Classification of goods"* -Classification of goods of the foreign economic activity (ТН ВЭД) used in the states-parties to the Agreement on the basis of harmonized system of description and coding of goods and combined tariff-statistics classification of EC;

*"Added value"* - share of value of declared goods, expressed in percentage that is determined by difference between the value of declared goods and value of used for their production imported raw materials and materials;

*"Resident"* - any natural and legal persons, enterprises and organizations having no status of a legal person that in compliance with the legislation of this state are subject to taxation on the basis of place of residence, domicile, place of management, registration and creation of any other analogous characteristics.

But this term does not apply to a person who is subject to taxation connected with the income, obtained as a result of operations that are not connected with the production and realization of goods;

*"Certificate of origin of goods"* - document confirming the country of origin of goods, issued by an administrative body of the state-exporter, authorized in compliance with the national legislation.

1. The country of origin of goods is a state-party to the Agreement, where the goods were completely produced or underwent the sufficient processing/treatment.
2. The goods completely produced in the given country are:

- (a) minerals extracted from earth of the country, its territorial sea or the bottom of this sea;
- (b) production of vegetable origin, cultivated or gathered in the given country;
- (c) living animals born and raised in the given country;
- (d) production got in the given country from raised in it animals;
- (e) production obtained as a result of hunting and fishing in the given country;
- (f) production of sea fishing and other production of sea fishing, got by the vessel of the given country or a vessel leased (freighted) by it;
- (g) production got on board the processing vessel of the given country solely from the production stipulated by sub-item (f)
- (h) production obtained from the sea bottom or sea minerals out of territorial sea of the given country, provided that the given country enjoys exclusive rights to process the aforesaid sea bottom or sea minerals;
- (i) waste products and scrap (secondary raw materials) obtained as a result of production or other processing operations as well as used articles gathered in this country and suitable only for being processed into the raw materials;
- (j) production of high technology, got in the open space on space-crafts belonging to this country or leased (freighted) by it;
- (k) goods produced in this country solely from the production, stipulated by sub-items (a)-(j) of this item.

3. For the purpose of determination of the country of origin of goods, produced in the state - party to the Agreement, the cumulative principle, defining the origin of these or those goods under its consecutive processing/treatment is used.

If during the production of final goods one of the states - parties to the Agreement uses raw materials or materials originated from other states-parties to the Agreement, confirmed by a certificate of origin of goods of CT-form and subject to gradual consecutive processing in other states - parties to the Agreement, the country of origin of these goods is considered a country where the goods are finally subject to processing/treatment.

In case of absence of a certificate of origin of raw materials or materials of CT-form the determination of a country of origin of final goods is carried out on the basis of criterion of sufficient processing/treatment (sub-items (a), (b), (c) of item 4 of the present Rules).

4. In case of involving into the production of goods of the third states besides the states-parties to the Agreement, the determination of goods is carried out in compliance with a criterion of sufficient processing/treatment of goods.

A criterion of sufficient processing/treatment of goods may be expressed:

- (a) by change of trade position according to ТН ВЭД at the level of even one of the marks out of the first four, happened as a result of processing/treatment;

- (b) by implementation of necessary terms, production and technological operations sufficient for the goods to be considered originated from the country where these operations were implemented;
- (c) by rule of ad valorem share when the value of used materials or added value reaches the fixed percentage share in the price of final production.

The basic criterion of sufficient processing/treatment is the change of trade position according to TH БЭД at the level of even one of the marks out of the first four; it is used in relations with all goods, except the goods introduced into the list of terms, production and technological operation during the implementation of which goods are considered to be originated from the country in which the operations were implemented (Annex 1 - an integral part of the present Rules). The given list includes the rule of ad valorem share both independently and in combination with other criteria of sufficient processing/treatment of goods.

In case of application of the rule of ad valorem share, the cost parameters are calculated:

- for the imported materials -according to the customs value of the materials during their import into the country where the production of final production is carried out, or, under the unknown origin of imported materials, according to the documentary approved price of their first sale in the territory of the country where the production of final production is implemented;
- for the final production - according to the price under "ex-factory" ("ex warehouse") terms of the Seller.

5. The following operations do not meet the criterion of sufficient processing/treatment of goods:

- (a) operations on insuring of the safety of goods during their storage or transportation; operations on preparation of goods for sale and transportation (splitting up of consignment, dispatch, sorting, re-packing);
- (b) simple assembling operations;
- (c) mixture of goods (components) that does not lead to the considerable difference between the obtained production and original components;
- (d) slaughter of cattle;
- (e) combination of two or more above-mentioned operations

6. During determination of a country of origin, disassembled or dismantled goods (supplied in several lots, if under the production or transport terms their dispatch in one lot is impossible, and if consignment of goods are split up into several lots as a result of a mistake or wrong addressing) can be considered in accordance with the desire of an applicant as united goods.

The conditions of application of the rules are as follows:

- preliminary notification of customs body of the importer country on splitting up of disassembled or dismantled goods into several lots with the indication of reasons of such a splitting up, with the enclosure of detailed specification of each lot with the codes according to TH БЭД, value and country of origin of goods included into each

lot, as well as the notification on splitting up goods into several lots as a result of mistake or wrong addressing - under documentary confirmation of wrong splitting up of goods:

- supply of all lots from one country by one exporter; import and registration of all lots of goods by one and the same customs;
- supply of all lots of goods within time, not exceeding six months from the date of adoption of the Customs Declaration.

7. For determination of a country of origin of goods, the origin of used for their production thermal and electric energy, cars, equipment and instruments is not considered.

Facilities, accessories, spares and instruments intended for use of cars, equipment, apparatus or transport facilities, are considered to be originated from the country of origin of cars, equipment, apparatus or transport facilities, if the given facilities, accessories, spares and instruments are imported and sold complete with aforesaid cars, equipment, apparatus or transport facilities in amount ordinary supplied with the given facilities.

Packing, the goods are imported into the customs territory in, is considered to be originated from the country of origin of goods, except the cases, when packing belongs to declaring separately from goods. In this case the country of origin of packing is determined separately.

For the determination of a country of origin of goods, if the packing, the goods are imported into the customs territory in, is considered to be originated from the country of origin of goods, only such packing is considered in which goods are ordinary realized in retail trade, and in case stipulated by rule (c) of item 4 (ad valorem share rule).

8. If goods, the origin of which meets the terms of the present Rules, are used in production of the other final goods, in this case the origin requirements applied to raw material, material, components, used for production of the goods are not taken into consideration during the determination of a country of origin of final goods.

9. Goods enjoy the treatment of free trade in the customs territories of the states - parties to the Agreement, if they correspond to the criteria of origin established by these Rules and:

- (a) are exported on the basis of the Agreement/contract between a resident of a state-party to the Agreement and a resident of another state-party to the Agreement and is imported from a customs territory of one state-party to the customs territory of another state-party to the Agreement;
- (b) are imported by a natural person-resident of a state-party to the Agreement from the customs territory of one of the states-parties to the customs territory of another state-party to the agreement.

At the same time goods should not leave the territory of the states-parties to the Agreement except the cases when such transportation is impossible on account of the geographic location of a state-party or its separate territory, and the cases, coordinated with goods exporter and importer competent bodies of states-parties to the Agreement.

10. For determination of a country of origin of goods in a concrete state-party to the Agreement, it is necessary to submit to the customs bodies of the country, goods are imported in, a CT-1 Form

certificate on origin of goods (Annex 2 - integral part of the present Rules) or a declaration on origin of goods.

Declaration on origin of goods represents a statement about a country of origin of goods made by a manufacturer, seller or a person, who transports goods, on the commercial account or any other document related to goods.

Certificate on origin of goods is issued, as a rule, for each separate lot of goods that is carried out by one or several transport facilities to one and the same consignee from one and the same consignor.

11. During the export of goods from states-parties to the Agreement a certificate on origin of goods is issued by an authorized body in compliance with the national legislation of a state-exporter.

A certificate is issued on the special, protected A4 (210x297 mm) Form, prepared through typographic method. Validity of a CT-1 Form certificate constitutes 12 months from the day of its issue.

States-parties to the Agreement shall exchange the samples of CT-1 Form certificates, seals of bodies and signatures of persons who are authorized to confirm certificates. Without presentation of the mentioned samples, certificates are considered to be invalid and goods shall not enjoy preferences provided for by the Agreement.

CT-1 Form certificate on origin of goods shall be completed in accordance with the following requirements:

Column 1 - "Consignor/exporter (name and post address)". It is possible to make entries according to a certificate on registration of an enterprise. In case if a consignor and an exporter are different legal persons, it should be indicated that a consignor (name and post address) acts "on the instruction" of an exporter (name and post address).

Column 2 - "Consignee/importer (name and post address)". In case if a consignee and an importer are different legal persons, it should be indicated that a consignee (name and post address) acts "on the instruction" of an importer (name and post address).

Column 3 – "Transport facilities and route of destination (as far as it is known)"

Column 4 - Number of a certificate (registration and/or number of a form), its form, a country that has issued a certificate, and a country for which this certificate has been issued;

Column 5 - "For office only". Office notes of the state control authorities of states of export, transit and/or receipt of goods, and if necessary, the following notes: "Duplicate", "Issued instead of a certificate", "Issued later", "CIS Cumulating";

Column 6 - "Number". Serial number of goods;

Column 7 - "Amount of places and type of packing";

Column 8 - "Description of goods". Commercial name of goods and other data, allowing to execute the identification of goods for customs legalization purposes in connection with declared goods.

In case of blank-space on the face side it is possible to use the additional paper (papers) on origin of goods (Annex 3), completed by an established rule (certified by a signature, seal and

under the same serial number, that a form of a certificate carries). Completion of a certificate on the backside is not admissible;

Column 9 - "Gross/net weight (Kg)". Weight or quantity characteristics of goods; difference between actual quantity of goods and quantity given in a certificate shall not exceed 5%;

Column 10 - "Number and date of commercial invoice". Data on commercial invoice and proforma invoice or any other document on financial and quantity parameters of goods (during the implementation of long-term contracts, when goods are carried by railway transport of one and the same consignor to one and the same consignee, completion of the column is not obligatory);

Column 11 - "Certificate". Completed by an authorized body and with indication of name includes name, address, seal and date of confirmation of data, mentioned in the certificate, as well as seal, signature and initials of a person, who is authorized to confirm the certificate;

Column 12 - "Declaration of an applicant". A country where goods were completely produced or underwent the sufficient processing, date of declaring the data on a country of origin of goods, as well as seal of an applicant and signature, name and initials of a person authorized by an applicant.

In case if goods are exported (imported) by a natural person - resident of one of the states-parties to the Agreement, the CT-1 Form certificate is completed with due regard of the following peculiarities:

Column 1 - Name, surname and address of a consignor;

Column 2 - in case of the availability of data - Name, surname and address of a consignee, as well as the note "For free circulation"

Completion of columns 5 and 10 in case of the non-availability of data is not obligatory;

Column 12 is confirmed by a signature of a consignor with the indication of date and name and surname of a consignor.

The instruction on registration and issue of certificates of origin of goods is elaborated and approved by the national authorized body of a state-party to the Agreement.

13. In case of loss or damage of a certificate on origin of goods the officially confirmed duplicate shall be issued. During the issue of a duplicate in item 11 "Authorized body" the date of issue of duplicate is indicated, and in item 5 "For office only" the word "Duplicate", number and date of original of the lost CT-1 Form certificate are indicated. Duplicate of a certificate enters into force upon the date of issue of an original; Summary validity of an original and duplicate shall not exceed 12 months.

A certificate may be issued after shipment of goods on the basis of a written justified statement of a customer; a customer along with the package of necessary documents provides the authorized body with the confirmation of actual shipment of goods (export declaration with the note of customs). In this case Column 5 of a certificate shall include: "Issued consequently".

Under the annulling by some reason of a certificate, issued earlier, Column 5 shall include "Issued instead of a certificate" with indication of a number and date of an annulled certificate (a certificate, issued instead of the other certificate, shall be given new serial number).

Under application of a cumulative principle the Column shall include a note "CIS Cumulating" with indication of numbers of CT-1 form certificates and countries where the certificate was issued.

Under re-export into the other state, the Column shall be completed in compliance with Item 18 of the present Rules.

14. Completion of a certificate is realized in three copies (the first copy is an original, the second and third - are copies, executed on unprotected forms) typed in the Russian language. Availability of erasures in a certificate is inadmissible.

The introduction of amendments is carried out through crossing out of erroneous information and over-typing of corrected data, consequently confirmed by a signature and seal of an authorized body of a state.

15. Original of a certificate of origin of goods is submitted along with the goods customs declaration and other documents necessary for implementation of customs registration.

16. In case of doubts regarding the irreproachability of a certificate or containing in it any data the customs authority of a country of import of goods may apply to the authorized body that confirmed a certificate, or competent bodies of a country of origin of goods with a request to supply the additional or detailed information, including requests, connected with simple selective control of certificates.

17. Cases when instead of documents, confirming a country of origin of goods, the declaration on origin of goods may be submitted, as well as when the delivery of documents on origin of goods is not obligatory, are defined in compliance with the national legislation of a country of import.

18. During the re-export of goods within states-parties to the Agreement, the issue of substituted certificate is possible in case of the availability of a CT-1 Form certificate of a country of origin of goods. At the same time, Column 5 shall include: "A certificate is issued on the basis of a certificate of a country of origin" (with indication of a number and date).

During the re-export of the goods within states-parties to the Agreement that were produced in their territories and imported into the customs territories of the states-parties before the entrance into force of the Rules of defining of a country of origin of goods (24 September 1993), the issue of a CT-1 Form certificate of origin of goods with the note in Column 5 "Goods are produced in \_ (country), in the year of \_", is possible. A country of origin is indicated according to the confirming documents to goods. Issue of a certificate is possible in any of states-parties to the Agreement with indication of a manufacturer and his location.

19. Goods shall not be considered to be originated in this country until the documents and/or data, confirming their origin are presented.

20. Non-presentation of correctly registered certificate of origin of goods or data on origin of goods are not a basis for their detain by customs authorities, except the cases provided for by the national legislation of states-parties to the Agreement.

Goods the origin of which are not established or the origin of which is established but they do not enjoy the treatment of free trade on account of lack of necessary for this purpose documents, shall be imported to a country of import in compliance with the requirements of tariff and non-tariff regulation of a country-importer. Customs authority of a state-party to the Agreement enjoys the right to refuse customs clearance if goods are originated from a country, the goods of which do not subject to delivery to a country-importer according to the international agreements valid in this state, and/or to its national legislation.

21. The goods, given in paragraph 2 of item 20, enjoy the treatment of free trade in the customs territories of states-parties to the Agreement under terms of receipt of relevant certificate on their origin (according to CT-1 Form) or other necessary documents within a year from the customs registration date.

22. Copies of certificates, as well as any other connected with them documentation, confirming origin of goods, are kept at the authorized body of a country-exporter within three years.

Annex 1 to the Rules of determination of a country of origin of goods

LIST

of terms, production and technological operations,  
during implementation of which goods are considered to be originated  
from the country, where the operations were executed

Note 1

1.1. First two columns of the present List include data on a product, received as a result of processing/treatment of raw materials or materials. The first column of the List includes a code of a product according to TH БЭД, and the second - description of a product in compliance with the code, given in the first column. For each concrete product, described in the first two columns, terms, production and technological operations, stipulating its origin (hereinafter referred to as - terms and operations), are given in Column 3.

Goods given in the List are determined exclusively by the code of goods according to TH БЭД; names of goods are given only for convenience of use.

In case, if the code of goods according to "TH БЭД" is preceded by preposition "from", the terms and operations in Column 3 apply only to the goods that are classified in the present trade positions and are indicated in the Column 2. This case requires the use of name of goods.

1.2. If the first column gives numbers of several trade positions or a number of a group and at the same time the second column gives the generalized description of goods, the relevant terms and operations, provided for by the third column, apply to all products, classified according to TH БЭД in the trade positions, indicated in the first column or to any trade position, indicated in the first column.

1.3. If some terms and operations apply to the part of goods, classified in one and the same trade position, and the other terms and operations apply to the other part (parts) of goods, in the second column there are relevant number of paragraphs and each of them concretely describes goods, and relevantly the third column gives terms and operations that apply to the goods, the description of which is given in this or that paragraph of the second column.

Note 2

2.1. The term "production" means the execution of any type of production and technological operations, including assembling and any other special operations. The provisions of Note 3.4. shall be taken into cognizance.

2.2. The term "material" means any ingredients, raw material, components, parts, etc., used for manufacture of production.

2.3. The term "product" means the manufactured product, even if it is intended for further use during other production.

2.4. The term "goods" means both materials and products.

Note 3

3.1. Terms and operations, given in the third column of the present List, shall be carried out only with respect to the used for product material that are not originated in the territory of states - parties to the Agreement on creation of the free trade zone (hereinafter referred to as - materials of foreign origin). Limitations, stipulated by terms and operations of the third Column, shall also apply to the used for manufacture of production materials of foreign origin.

3.2. If terms and operations state that during the manufacture of products materials of any trade positions may be used, this means that materials, classified in the same trade position, as the product is, may be used under observance of specific limitations that may be provided for by terms and operations.

3.3. If a product manufactured from materials of foreign origin acquires, the status of been originated from a state-party of the Agreement, where its processing is carried out on account to the change of trade position or due to specific condition or operation in accordance with the List, the terms and operations, applied to the product during its manufacture, shall not be used.

3.4. If as a result of execution of operations by the Rules, provided for by paragraph 5, the implementation of criterion of sufficient treatment/processing (paragraph 4 of the Rules) is achieved, the given product shall not be considered to be originated from the country where these operations were executed.

3.5. The object of application of terms and operations shall be this or that product, determined as an independent object of classification in compliance with the rules of classification of goods according to TH БЭД. In case of determination of origin of set of products, classified according to the 3 rd Basic Rule of interpretation of TH БЭД, each separate element, forming the set of goods shall be considered as an object of application of terms and operations.

Relevantly:

- a product, consisting of a group of elements or assembled from a number of parts and classified according to the provisions of TH БЭД as a single cargo, shall be considered as an object of application of terms and operations;
- if consignment of goods consists of identical products, classified according to one and the same trade position TH БЭД, each product shall be considered separately for the purpose of application of terms and operations;

- if according to the 5<sup>th</sup> basic Rule of interpretation of TH БЭД, the packing is classified together with the located in it products, it shall be considered as a component of goods during the determination of origin of the given goods.

3.6. A product, consisting of a group of elements or assembled from a number of parts and classified under the rules of classification of goods according to TH БЭД as a single cargo, shall be considered as a product meeting such terms and operations. If a part of components of the given product meets, and another part does not meet the terms and operations, this product shall be considered to meet the terms and operations provided that the cost of components, not meeting the terms and operations, does not exceed 15% of the free factory price of the given product.

#### Note 4

4.1. Terms and operations, given in the 3<sup>rd</sup> column of the present Rules, establish the minimum volume of production and technological operations. Implementation of the established production and technological operations in minor volume shall not determine the origin of a product.

4.2. If terms and operations, given in the List, provide for the product to be manufactured from more than one material, it means that one or more materials may be used. The use of all materials is not obligatory.

But, if within one term or operation there is a limitation, established with regard to one material, and at the same time there are other limitations established with regard to other materials, the given limitations are applied only to the materials that were really used for manufacture of a product.

4.3. If terms and operations, given in the List, establish that a product must be manufactured from the certain material, it means that this term shall not prevent from the use of another materials that due to their nature shall not violate the provision of the given term or operation. (For example: if terms and operations specially provide for the use of cereals or their derivatives, it shall not prevent from the use of mineral salts, chemical and other additions not manufactured for cereals.)

<b>CIS Code of TH БЭД</b>	<b>Name of Goods</b>	<b>Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries</b>
<b>1</b>	<b>2</b>	<b>3</b>
0201	Meat of bovine animals, fresh or chilled.	Production from materials of any heading, except the meat of bovine animals, frozen of 0202 heading
0202	Meat of bovine animals, frozen	Production from materials of any heading, except the meat of bovine animals, fresh or chilled of 0201 heading
0206	Food by-products of horned cattle, pigs, sheep, goats, horses, donkeys, mules or hinnies, fresh, chilled or frozen	Production from materials of any heading, except the bones of 0201-0205 headings
0207	Meat and food by products of poultry, given in 0105 trade heading, fresh, chilled or frozen	Production from materials of any heading under terms of specialized production in compliance with the technology of treatment/processing
0210	Meat and food by-products,	Production from materials of any

<b>CIS Code of ТН ВЭД</b>	<b>Name of Goods</b>	<b>Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries</b>
<b>1</b>	<b>2</b>	<b>3</b>
	corned, pickled, dried or smoked; food flour from meat or meat by-products	headings, except the meat and food meat by-products of 0201-0206 and 0208 or poultry-liver of 0207 heading
0402	Milk and cream, condensed or with addition of sugar or other sweetening substances	Production from materials of any heading. Cost of the used materials of the same heading, as the finished shall not exceed 40% of the cost of final production.
0408	Eggs of poultry without shall, and egg yolks, fresh, dried, - steam-boiled or boiled in water, formed, frozen or canned by other way, with addition or without sugar or other sweetening substances	Production from materials of any heading, except poultry eggs of 0407 heading
0506	Bones and horns, crude, skimmed, subject to initial processing (without forming), processed by acid or degelatinised; powder or wastes of these products	Production under which materials of 02 group are used
0710 40 000	Sugar corn (raw or boiled in water or on steam), frozen	Production from sugar corn, fresh or chilled
0711 90 300	Sugar corn canned for short- term storage, but in this condition unfit for immediate food use	Production from sugar corn, fresh or chilled
0901	Coffee, roasted or unroasted, with and without caffeine; coffee shall or coffee-beans coat; coffee substitute, containing coffee in any proportion	Production from materials of any heading under term of implementation of technological operations on drawing out of receipts and on roasting.
0902	Flavoured and unflavoured tea	Production, during which the cost of all used materials shall not exceed 50% of final production price .
1106 10 000	Fine-ground and coarse-ground flour and powder from dried bean vegetables of 0713 trade heading	Production from materials of any heading during which the cost of all used materials shall not exceed 50% of final production price
1301	Natural peeled shellac: natural gums, tars, gum tars and soft resin (e.g. balsam)	Production from materials of any heading during which the cost of the used materials of 1301 heading shall not exceed 50 % of final production price
from 1501 00	Pig fat (including lard) and poultry fat, except fat of 0209 and 1503 trade headings: - Fats from bones and/or wastes;  - Others	Production from materials of any heading, except materials of 0203, 0206 or 0207, or 0506 headings; production from meat or sub-products of pigs of 0203 or 0206 headings, or meat or sub-products of poultry of 0207 heading

<b>CIS Code of TH ВЭД</b>	<b>Name of Goods</b>	<b>Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries</b>
<b>1</b>	<b>2</b>	<b>3</b>
from 1502 00	Fat of horned cattle, sheep or goats, except fat of 1503 trade heading; - Fats from bones and/or wastes;	Production from materials of any heading, except material of 0201, 0202, 0204 or 0206, or 0506 headings;
1504- 1506 00 000	Fats, oils and their fractions, from fish or sea mammals, non-purified or purified, but not chemically modified, hair fat (suint) and fat substances (including lanolin); other animal fats and oils and their fractions, non-purified or purified, but not chemically modified;	Production from materials of any heading in compliance with the terms of execution of the following technological operations: - skimming; - steaming; - cleaning.
from 1507- 1515	Raw vegetable oils  - hydrated; - refined; - not deodorized; - refined and deodorized.	Mechanical cleaning through the following methods: - filtration; - hot water or steam processing; - lead neutralization, - steam processing in vacuum
1701	Cane or beet sugar and chemically pure sucrose, in solid form.	Production from materials of any headings provided that the clearing (for sugar-cane), saturation, sulphitation and filtration technological operations and other further operations (for sugar-cane and sugar-beet) take place.
1702 50 000 1702 90 100	Chemically clean fructose: Chemically clean maltose.	Production from materials of any heading, including the materials of 1702 heading
1806	Chocolate and other food preparations containing cocoa	Production from materials of any heading, but the cost of the used materials of the same heading, as the finished production of the heading, shall not exceed 50% of the price of the final product.
1905	Bread, pastry, cakes, biscuits and other bakers' wares, whether or not containing cocoa; communion wafers, empty cachets of a kind suitable for pharmaceutical use, sealing wafers, rice paper and similar products.	Production during which the cost of all used products shall not exceed 50% of the price of the final product.
2101 30 910 (except 2101 30 110)	Extracts, essences and concentrations of roasted chicory	Production provided that the main technological operations: grinding, extracting or concentrating take place
2103 30 900	Ready mustard	Production from mustard powder
from 2106	Sugar syrup flavoured or with the addition of due-stuffs	Production during which the cost of all used products shall not exceed 50% of the price of the final product.

CIS Code of ТН ВЭД	Name of Goods	Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries
1	2	3
2106 90 200	Comheadings of alcoholic semi-finished products, used for production of drinks	Production during which the cost of all used products shall not exceed 50% of the price of the final product.
2204	Wine of fresh grapes, including fortified wines; grape must other than that of heading No 2009.	Production from materials of any heading provided that the corking and filtration technological operations and other further operations take place, but the cost of the used materials of 2204 heading shall not exceed 50% of the price of the final product.
2205	Vermouth and other wine of fresh grapes flavoured with plants or aromatic substances.	Production from materials of any heading provided that the corking and filtration technological operations and other further operations take place, but the cost of the used materials of the same heading, as the finished production of the heading, shall not exceed 50% of the price of the final product.
2206-00	Other ferment drinks (apple wine, pear wine, honey wine); mixtures of ferment drinks and mixture of soft drinks that are not mentioned anywhere	Production from materials of any heading provided that the corking and filtration technological operations and other further operations take place,
2208	Undenatured ethyl alcohol of an alcoholic strength by volume of less than 80 % vol; spirits, liqueurs and other spirituous beverages	Production from materials of any heading provided that the corking and filtration technological operations and other further operations take place, but the cost of the used materials of the same heading, as the finished production of the heading, shall not exceed 50% of the price of the final product.
2309	products used in animal feeding.	Production during which the cost of all used products shall not exceed 50% of the price of the final product.
Group 25	Salt; sulfur; soil and stone; plaster materials, limestone and cement	Production from materials of any heading under the terms of specialized production in compliance with the technology of treatment/processing; coal preparation, cleaning, grinding of firm crystals, cutting
2504	Natural graphite.	increasing of carbon content, refinement and pounding of raw materials.
2515 12 500	Marble, travertine, cut up or divided through other way into blocks or slabs of rectangular (including square) form, slabs of more than 4 cm thick, not exceeding 25 cm	Extraction of natural stone, cutting up.

CIS Code of TH ВЭД	Name of Goods	Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries
1	2	3
2516	Granite, porphyry, basalt, sandstone and other monumental or building stone, whether or not roughly trimmed or merely cut, by sawing or otherwise, into blocks or slabs of a rectangular (including square) shape.	Extraction of natural stone, cutting up.
2518	Dolomite, whether or not calcined; dolomite roughly trimmed or merely cut, by sawing or otherwise, into blocks or slabs of a rectangular (including square) shape; agglomerated dolomite (including tarred dolomite).	Extraction, breaking up, cutting up, pounding.
2519	Natural magnesium carbonate (magnesite); fused magnesia; dead-burned (sintered) magnesia, whether or not containing small quantities of other oxides added before sintering; other magnesium oxide, whether or not pure.	Production during which all used substances shall be classified in heading, differing from the heading of product, except the natural magnesium carbonate (magnesite)
2524 00	Asbestos	Production from asbestine mineral of asbestos (0-6)
2525	Mica, including splittings; mica waste.	Splitting, cutting, pounding
2707 50 100	Mixture of flavoured hydrocarbons, 65 % or more of which (including wastes) are distilled at temperature of 250 C° under ASTM D 86 method for use as a fuel	Operations on purifying and/or one or several definite processes. Other operations, under which all usable materials should be classified in ' the heading differed from the heading of the product. But the material of the same heading as a product may be used provided that its cost does not exceed 50% of the price of final production.
2709 00	Crude oil and crude oil products, received from bituminous minerals	Production form materials of any headings provided that the technical operations on pyrogennical distillation of bituminous minerals are executed
2701 00	Oil and oil products, received from bituminous minerals, except crude products; products, not listed in other items, including 70% or more oil or oil products, received from bituminous minerals, provided that these products are the main constituents	Operations on purifying and/or one or several definite processes. Other operations, under which all usable materials should be classified in the heading differed from the heading of the product. But the material of the same heading as a product may be used provided that its cost does not exceed 50% of the price of final production.

CIS Code of TH ВЭД	Name of Goods	Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries
1	2	3
2711	Petroleum gases and other gaseous hydrocarbons.	-
2712	Petroleum jelly ; paraffin wax, micro-crystalline petroleum wax, slack wax, ozokerite, lignite wax, peat wax, other mineral waxes, and similar products obtained by synthesis or by other processes, whether or not coloured.	-
2713	Petroleum coke, petroleum bitumen and other residues of petroleum oils or of oils obtained from bituminous minerals.	Operations on purifying and/or one or several definite processes. Other operations, under which all usable materials should be classified in the heading differed from the heading of the product.
2714	Bitumen and asphalt, natural; bituminous or oil shale and tar sands; asphaltites and asphaltic rocks.	But the material of the same heading as a product may be used provided that its cost does not exceed 50% of the price of final production.
2715 00	Bitumen mixtures, based on natural asphalt, natural bitumen, mineral resins and pitch of mineral resins (bitumen mastic, asphalt road surfacing)	-
Group 28	Products of non-organic chemistry: compounds of non-organic or organic precious metals, rear soil metals, radioactive elements or isotopes, except the productions of 2811 29 100, 2818 20 000, 2821 20 000, 2833 22 000 sub-headings, the rules of which are given below .	Production, under which all used materials should be classified in the heading differed from the heading of product. But the materials of one and the same heading may be used provided that their cost does not exceed 20% of the price of final production
from 2811 29 100	Sulfur oxide (V1) (sulfur anhydride)	Production from sulfur dioxide
2818 20 000	aluminum oxide, differ from artificial corundum	Production from materials of any headings under the specialized production according to the technology of treatment/processing
2821 20 00	Subsoil dyes (mineral dyes)	Burning or grinding of subsoil dyes
2833 22 000	Aluminum sulphate	Production under which the cost of all used materials shall not exceed 50% of the price of final production
Group 29	Organic chemical compounds, except the compounds of headings from 2901, from 2902, 2905 19 100, 2915, 2932 99 300, 2932 99 700, 2933, 2934 the rules of which are given below	Production, under which all used materials should be classified in the heading differed from the heading of product. But the materials of one and the same heading may be used provided that their cost does not exceed 50% of the price of final production

CIS Code of TH ВЭД	Name of Goods	Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries
1	2	3
from 2901	Acyclic hydrocarbons for use as a fuel	Operations on purifying and/or one or several definite processes. Other operations, under which all usable materials should be classified in the heading differed from the heading of the product. But the material of the same heading as a product may be used provided that its cost does not exceed 50% of the price of final production.
from 2902	Cyclanes and cyclenes (except azulenes), benzene, toluene, xylol, used as a fuel	Operations on purifying and/or one or several definite processes. Other operations, under which all usable materials should be classified in the heading differed from the heading of the product. But the material of the same heading as a product may be used provided that its cost does not exceed 50% of the price of final production.
2905 19 100	alcoholates of metals	Production from materials of any heading including production from other materials of 2905 heading. But alcoholates of metals of this heading may be used provided that their cost does not exceed 50% of price of final production
2915	Saturated acyclic monocarboxylic acids and their anhydrides, halides, peroxides and peroxyacids; their halogenated, sulphonated, nitrated or nitrosated derivatives.	Production from materials of any heading. But cost of used materials of 2915 or 2916 headings shall not exceed 50 % of the price of final production
2932 99 300	Internal elementary ethers	Production from materials of any heading. But cost of used materials of 2909 heading shall riot exceed 50 % of the price of final production
2932 99 700	Other cyclic acetals and internal haemiacetals, including or not including other oxygen containing functional groups, and their halogen, sulfated, nitrated or nitrazed derivatives.	Production from materials of any heading, including other materials of 2932 heading.
2933	Heterocyclic compounds with nitrogen hetero-atom(s) only.	Production from materials of any heading. But cost of used materials of 2932 or 2933 headings shall not exceed 50% of the price of final production

CIS Code of TH ВЭД	Name of Goods	Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries
1	2	3
2934	Nucleic acids and their salts; other heterocyclic compounds.	Production from materials of any heading. But cost of used materials of 2932, 2933 or 2934 headings shall not exceed 20 % of the price of final production
Group 30	Pharmaceutical production, except goods of 3002, 3003, 3005 and 3006 60, the rules of application for which are given below	Production under which all usable materials should be classified in the heading differed from the heading of the product. But the material of the same heading as a product may be used provided that its cost does not exceed 50% of the price of final production.
3002	Human blood; animal blood prepared for therapeutic, prophylactic or diagnostic uses; antisera and other blood fractions and modified immunological products, whether or not obtained by means of biotechnological processes; vaccines, toxins, cultures of micro-organisms (excluding yeast) and similar products.	Production from materials of any heading, including production from materials of 3002 heading. But materials of 3002 heading may be used provided that their cost does not exceed 50 % of the price of final production
3003	Medicaments (excluding goods of heading No. 30.02, 30.05 or 30.06) consisting of two or more constituents which have been mixed together for therapeutic or prophylactic uses, not put up in measured doses or in forms or packings for retail sale.	Production from materials of any heading. But cost of used materials of 3003 heading shall not exceed 20 % of the price of final production
3005	Wadding, gauze, bandages and similar articles (for example, dressings, adhesive plasters, poultices), impregnated or coated with pharmaceutical substances or put up in forms or packings for retail sale for medical, surgical, dental or veterinary purposes.	Production from materials of any heading, except the pharmaceutical substances. But cost of used materials of 3005 heading shall not exceed 50 % of the price of final production
3006 60	Chemical contraceptive facilities, produced on the basis of hormones or spermicides	Production from materials of any heading, under which the cost of all used materials shall not exceed 50% of the price of final production.
Group 31	Fertilizers	Production under which all usable materials should be classified in the heading differed from the heading of

CIS Code of TH ВЭД	Name of Goods	Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries
1	2	3
		the product. But the material of the same heading as a product may be used provided that its cost does not exceed 50% of the price of final production.
Group 32	Tanning or dyeing extracts; tannins and their derivatives; dye-stuff, pigments and other dyeing substances; dyes and varnishes; putties and other mastics; ink (typographic dye- stuff), except the production of 3201, 3205 00 000 headings, the rules of application of which are given below.	Production under which all usable materials should be classified in the heading differed from the, heading of the product. But the material of the same heading as a product may be used provided that its cost does not exceed 20% of the price of final production.
From 3201	Tannins and their salts, elementary and compound ethers and other derivatives	Production from tanning extracts of vegetable origin
3205 00 000	Colored varnishes; preparations on the basis of colored varnishes, mentioned in note of the given group.	Production from materials of any heading, except materials of 3203 and 3204 headings, provided that the cost of all materials, pertaining to 3205 heading, does not exceed 20% of the price of final production.
Group 33	Essential oils and resins; perfumery, cosmetic or toilet articles, except products of 3301 heading, the rules of application of which are given below.	Production from materials of any heading But the cost of the used materials of the same heading, as the finished production of the heading, shall not exceed 40% of the price of the final product.
3301	Essential oils (terpeneless or not), including concretes and absolutes; resinoids; extracted oleoresins; concentrates of essential oils in fats, in fixed oils, in waxes or the like, obtained by enfleurage or maceration; terpenic by- products of the deterpenation of essential oils; aqueous distillates and aqueous solutions of essential oils.	Production from materials of any heading, including production from materials of the same heading, with the use of cleaning through special method under production terms and in compliance with the technology of treatment/processing. But cost of used materials of 3301 heading shall not exceed 50 % of the price of final production.
Group 34	Soap, surface-active organic substances, detergents, lubricators, artificial and ready waxes, comheadings for cleaning and varnishing, candles and analogous articles, pastes for modeling, plasticine,	Production, when all used materials must be in headings other than finished product. materials from same headings may be used, if their cost not exceed 50% of the price of the final product. Production from materials of any heading, when maintained following technological operations:

CIS Code of ТН ВЭД	Name of Goods	Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries
1	2	3
		<ul style="list-style-type: none"> <li>- fat set by receipt;</li> <li>- boiling of soap;</li> <li>- collecting of soap;</li> <li>- cooling and drying;</li> <li>-mechanical treatment;</li> <li>- mixing with additional components;</li> <li>-mechanical treatment</li> <li>- cutting up;</li> <li>- punching;</li> <li>- packaging.</li> </ul>
3403	Lubricating preparations (including cutting-oil preparations, bolt or nut release preparations, anti-rust or anti-corrosion preparations and mould release preparations, based on lubricants) and preparations of a kind used for the oil or grease treatment of textile materials, leather, foreskins or other materials, but excluding preparations containing, as basic constituents, 70% or more by weight of petroleum oils or of oils obtained from bituminous minerals.	Production from materials of same heading when the costs of this materials shall not exceed 50% of the price of the final product.
From 3404	Artificial waxes and prepared waxes.	dealership with fining and/or one or more determined treatment. other dealership when all used materials must be in heading other than heading of final product. but materials of same headings as product heading can be used if their cost not exceed 50% of the price of the final product.
Group 35	Albuminous substances, modified starches; glues; ferments, except product of heading 3505 10 5000, 3505 10 900, 3507.	Production from materials of any headings, when all used materials must be in other headings than finished product Heading. materials of same headings can be used if their cost not exceed 20% of the price of the final product.
3505 10 500	Starches (modified in simple or sophisticated ethers)	Production from materials of any headings, including of other materials of heading 3505
3505 10 900	Other modified starches.	Production from materials of any headings except materials of heading 1108
From 3507	Enzymes; prepared enzymes not elsewhere specified or included.	Production when cost of all used materials shall not exceed 50% of the price of the final product.

CIS Code of TH ВЭД	Name of Goods	Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries
1	2	3
Group 36	explosive substances; pyrotechnic ware; matches; pyrophor alloys; some burning substances.	Production from materials of any headings when all used materials must be under heading other than heading of finished product. but materials of the same heading as a product can be used when the cost of all this materials shall not exceed 20% of the price of the final product.
Group 37	Photo and movie goods, except products of headings 3701, 3702, 3704 00	Production from materials of any headings when all used materials must be under heading other than heading of finished product. but materials of the same heading as a product can be used when the cost of all this materials shall not exceed 20% of the price of the final product.
3701	Photographic plates and film in the flat, sensitised, unexposed,, of any material other than paper, paperboard or textiles; instant print film in the flat, sensitised, unexposed, whether or not in packs.	Production, when all used materials must not be in headings 3701 or 3702
3702	Photographic film in rolls, sensitised, unexposed, of any material other than paper, paperboard or textiles; instant print film in rolls, sensitised, unexposed.	Production, when all used materials must not be in headings 3701 or 3702
3704 00	Photographic plates, film, paper, paperboard and textiles, exposed but not developed.	Production, when all used materials must not be in headings 3701 - 370400
3800	Other chemical products, except headings 3801 20 100, 3801 30 100, 3803 00, 3805, 3806, 3806 30 000, 3807 00, 3808-3814 00, 3818 00- 3820 00 000, 3822 00 000, 3824	Production when all used materials must be in other headings than finished product Heading. materials of same headings can be used if their cost not exceed 20% of the price of the final product.
3801 20 100	Colloidal graphite in form of slip in oil or semi-colloidal graphite.	Production from materials of any heading when the costs of this materials shall not exceed 50% of the price of the final product
3801 30 000	Carbonaceous pastes for electrodes and similar pastes for furnace linings.	Production from materials of any heading when the costs of used materials of heading 3403 shall not exceed 50% of the price of the final product
3803 00	Tall oil, whether or not refined	refined crude oils
3805	Gum, wood or sulfate turpentine and other terpenic oils produced by the distillation or other treatment of	cleaning (distillation or fining of crude oil of turpentine sulfate)

CIS Code of ТН ВЭД	Name of Goods	Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries
1	2	3
	coniferous woods; crude dipentene; sulfite turpentine and other crude para-cymene; pine oil containing alpha- terpineol as the main constituent	
3806	Rosin and resin acids, and derivatives thereof, rosin spirit and rosin oils; run gums	Production from acids containing pitch
3806 30 000	Ester gums	Production from acids containing pitch
3807 00	bleak tar; (based on rosin, resin acids or on vegetable pitch)	Production when,all used materials must be under heading other than finished product. but materials of same heading as a product can be used when the cost of this materials shall not exceed 50% of the price of the final product.
3824	Products of chemical industry:  -Connecting, ready substances, used in production of founding moulds and rods, on the bases of natural resins; - Naphthane acids, their salts, not soluble in water and their compound ethers; - Sorbite, otherwise mentioned in 2905 heading; - Oil sulphonates, except sulphonates of oil alkaline metals, ammonium or ethenolainines, theophinated sulpho-acids of oils, received from bituminous rocks and their sult;; - ionic exchangers; - Absorbing composition for completity vacuum in electronic tube or electronic valves; - Alkalized feric oxide for gas cleaning; - Ammoniac water received as a result of lightly gas cleaning. - Sulpho-naphthelene acids and their salts, not soluble in maker and theirs compound ethers; - Fusel-oils and Dippel (osseous) oil; - Mixture of salts with different oniones;	Production when all used materials must be in heading other than finished product. materials of same heading can be used when the cost of this materials shall not exceed 50% of the price of the final product.

<b>CIS Code of ТН ВЭД</b>	<b>Name of Goods</b>	<b>Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries</b>
<b>1</b>	<b>2</b>	<b>3</b>
	- Copying pastes on the basis gelatine, including the paper and textile materials basis.	
3811 21 000	Containing petroleum oils or oils obtained from bituminous minerals	Production when the cost of used materials of heading 3811 shall not exceed 50% of the price of the final product.
3823 70 000	Industrial fatty alcohols	Production from materials of any headings, including fatty acids
3901 - 3915	polymers in initial forms, wastes, cutting wastes and scraps of plastic	production when the costs of all used materials. shall not exceed 50% of the price of the final product c but the costs of all used materials of heading 39 shall not exceed 50% of the price of the final product
3916-3921	semi-manufactured and ware from plastic	production when the costs of used materials of heading 39 shall not exceed 50% of the price of the final product but the costs of all used materials of heading '39 shall not exceed 20% of the price of the final product
3926	Other articles of plastics and articles of other materials of headings Nos. 39. 01 to 39.14	Production, when the cost of all used materials shall not exceed 50% of final production price
4001	Natural rubber, balata, gutta- percha, guayule, chicle and similar natural gums, in primary forms or in plates, sheets or strip	exfoliation of natural caoutchouc sheets
4005	Compounded rubber, unvulcanised, in primary forms or in plates, sheets or strip.	Production, when the cost of all used materials shall not exceed 50% of final production price
4012	Retreaded or used pneumatic tyres of rubber; solid or cushion tyres, interchangeable tyre treads and tyre flaps, of rubber.	Production, when the cost of the used materials, which are in same heading with final product shall not exceed 50 % of final production price
4012 10	Retreaded tyres:	Renewal of used tyres
4017 00	Hard rubber (for example, ebonite) in all forms, including waste and scrap; articles of hard rubber	Production from hard rubber
4101 – 4103	Other raw hides and skins, without hair on, other than those excluded by Note 1 (b) or 1 (c) to this Chapter.	Processing of animal skins by moving away hair
4104-4107	Leather of bovine or equine animals, without hair on, other than leather of heading No. 4108 00 or 4109 00 000	Processing of skins from tanning animal skins
4302	Tanned or dressed furskins	Processing from tanning and dressed furs

CIS Code of ТН ВЭД	Name of Goods	Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries
1	2	3
	(including heads, tails, paws and other pieces or cuttings), unassembled, or assembled (without the addition of other materials) other than those of heading No. 43.03	
4403	Wood in the rough, whether or not stripped of bark or sapwood, or roughly squared.	Production from rough wood, without bark or simply ragged
4407	Wood sawn or chipped lengthwise, sliced or peeled, whether or not planed, sanded or finger-jointed, of a thickness exceeding 6mm (.236 inch)	bucking, chipping (planing), polishing, pin connecting.
4408	Veneer sheets and sheets for plywood (whether or not spliced) and other wood sawn lengthwise, sliced or peeled, whether or not planed, sanded or finger-jointed, of a thick- ness not exceeding 6 mm (.236 inches):	patching (gluing), chipping, polishing.
4409	Wood (including strips and friezes for parquet flooring, not assembled) continuously shaped (tongued, grooved, rebated, chamfered, V-jointed, beaded, molded, rounded or the like) along any of its edges or faces, whether or not planed, sanded or finger-jointed.	Milling or profiling, polishing or pin connecting, bucking.
from 4410- 4413 00 000	Particle board and similar board of wood or other ligneous materials, whether or not agglomerated with resins or other organic binding substances	Milling or profiling, polishing.
4414 00	Wooden frames for paintings, photographs, mirrors or similar objects.	profiling, polishing, assembling
4416 00	Casks, barrels, vats, tubs and other coopers' products and parts thereof, of wood, <b>including</b> staves.	Production from stave, even filed along two basic surfaces, not processed otherwise;
44 18	Builders' joinery and carpentry of wood, including cellular wood panels, assembled parquet panels; shingles and shakes.	Production from wood, when used materials must be in heading other than heading of final product but porous wood panel and shingles can be used
4421	match-wood, nails from wood for footwear	Production from wood of any headings except holzdrah of 4409 heading

<b>CIS Code of ТН ВЭД</b>	<b>Name of Goods</b>	<b>Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries</b>
<b>1</b>	<b>2</b>	<b>3</b>
4817	Envelopes, letter cards, plain postcards and correspondence cards, of paper or paperboard; boxes, pouches, wallets and writing compendiums, of paper or paperboard, containing an assortment of paper stationery	Production when all used materials must be in heading other than final product. but costs of all used materials shall not exceed 50% of the price of the final product.
4819	Cartons, boxes, cases, bags and other packing containers, of paper, paperboard, cellulose wadding or webs of cellulose fibers.	Production when all used materials must be in heading other than final product. but costs of all used materials shall not exceed 50% of the price of the final product.
6601	Umbrellas and sun umbrellas (including walking-stick umbrellas, garden umbrellas and similar umbrellas)	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
6803 00	Worked slate and articles of slate or of agglomerated slate.	Production from finished schist
from 6804, 6805	Goods from artificial abrasive on the basis of silicon carbide	Production from materials of any headings except materials of heading 6804 and 8805 and carbide flint of heading 2849
from 6812	Goods from asbestos or mixtures on the basis of asbestos or on the basis of asbestos and magnesium carbonate	Production from finished asbestos fibers or mixture based on asbestos, or from mixtures from asbestos and magnesium carbonate.
from 6814	Worked mica and articles of mica, including agglomerated or reconstituted mica, whether or not on a support of paper, paperboard or other materials	Production from processed mica (including agglomerated and reconstructed mica)
7006 00	Glass of heading 7003, 7004 or 7005, bent, edge-worked, engraved, drilled, enameled or otherwise worked, but not framed or fitted with other materials	Production from materials of same heading under execution of special technological operation, which provide final product specifications other than those of used materials.
7102, 7103, 7104	Precious or semiprecious and Synthetic or reconstructed finished stones	Production from not processed Precious or semiprecious stones (Synthetic or reconstructed)
7106, 7108, 7110	semimanufactured... precious metals or in form of powder	Production from not processed precious metals
7107 00 000 7109 00 000	Base metals or silver, clad with precious metals semi-manufactured...	Production from not processed clad metals
7111 00 000	Base metals, silver or gold, clad with platinum, not further worked than semi-manufactured.	Electrolytic, chemical, thermal concentration, alloy of metals
7116	Articles of natural or cultured	Production, when the costs of all used

CIS Code of ТН ВЭД	Name of Goods	Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries
1	2	3
	pearls, precious or semi- precious stones (natural, synthetic or reconstructed)	materials shall not exceed 50% of the price of final product.
7117	Imitation jewelry Of base metal, whether or not plated with precious metal	Production from parts of not precious metals, not gilded, not silver over, not platinize, when the costs of all used materials shall not exceed 50% of the price of final product.
7218	semi-manufactured goods, flat rolled, rods, angles and profiles from stainless steel.	Production from stainless steel in bar forms or other initial forms of heading 7224
7224,7225, 7226,7227	semi-manufactured goods, flat rolled, hot-rolled rod, in free wound hanks from other stainless steels.	Production from other alloyed steels in bar forms or other initial forms
7322	Radiators for central heating, not electrically heated, and parts thereof, of iron or steel.	Production when all used materials must be in heading other than heading of final product but materials of same heading can be used if the costs of used materials does not exceed 5% of the cost of final product.
7400	Copper and ware from copper except products of headings 7401-7405	Production when all used materials must be in heading other than heading of final product. but materials of same heading can be used if the costs of used materials does not exceed 50% of the cost of final product.
7403	Copper alloys not finished	Production from refined cooper, not processed or from waste and scrap
7500	Nickel and ware from nickel except products of headings 7501-7503	Production when all used materials must be in heading other than heading of final product. but the cost of all used materials shall not exceed 50% of the cost of final product.
7600	aluminium and ware from aluminium except products of headings 7401-7405	Production when all used materials must be in heading other than heading of final product. but the cost of all used materials shall not exceed 50% of the cost of final product
7800	Lead and ware from lead except products of heading 7802 00 000	Production when all used materials must be in heading other than heading of finished product. but the cost of all used materials shall not exceed 50% of the cost of final product
7900	Zinc and ware from zinc except products of heading 7902 00 000	Production when all used materials must be in heading other than heading of final product.

<b>CIS Code of ТН ВЭД</b>	<b>Name of Goods</b>	<b>Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries</b>
<b>1</b>	<b>2</b>	<b>3</b>
		but the cost of all used materials shall not exceed 50% of the cost of final product
8000	Tin and ware from tin except products of heading 8002 00 000	Production when all used materials must be in heading other than heading of finished product. but the cost of all used materials shall not exceed 50% of the cost of final product
8100	Other not precious metals and not finished ware from not precious metals	Production when the costs of all used materials of same heading shall not exceed 50% of the cost of final product
8208	Knives and cutting blades, for machines or for mechanical appliances, and base metal	Production from materials of any headings. but the costs of all used materials of
	parts thereof.	same headings as a final product shall not exceed 50% of the cost of final product.
8400	Nuclear reactors, Boilers, Machinery and Mechanical Appliances; Parts Thereof, except products of the headings, the rules of application of which are given below: 8403, 8404, 8406-8408, 8412, 8415, 8418, 8425-8430, 8444-8447, 8448, 8452, 8456-8466, 8469-8472, 8480, 8484, 8485	Production when the cost of all used materials shall not exceed 50% of the price of the final product. In above-mentioned framework, materials, classified in the same heading as a product, can be used if the cost of used materials does not exceed 5% of the price of the final product.
8403	Central heating boilers (other than those of heading 8402) and parts thereof	Production when the percentage share of the VAT shall not be less than 50% of the price of the final product.
8404	Auxiliary equipment for use with boilers of heading 8402 or 8403 (for example, economizers, super-heaters, soot removers, gas recoverers); condensers for steam or other vapor power units;	Production when the percentage share of the VAT shall not be less than 50% of the price of the final product.
8406	Steam turbines and other vapor turbines, and parts thereof	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8407	Spark-ignition reciprocating or rotary internal combustion piston engines	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8408	Compression-ignition internal combustion piston engines (diesel or semi-diesel engines)	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8412	Other engines and motors, and parts thereof	Production when the costs of all used materials shall not exceed 50% of the

<b>CIS Code of ТН ВЭД</b>	<b>Name of Goods</b>	<b>Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries</b>
<b>1</b>	<b>2</b>	<b>3</b>
		price of the final product.
8415	Air conditioning machines, comprising a motor-driven fan and elements for changing the temperature and humidity, including those machines in which the humidity cannot be separately regulated;	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8418	Refrigerators, freezers and other refrigerating or freezing equipment, electric or other; heat pumps, other than air conditioning machines of heading 8415; parts thereof	Production when the costs of all used materials shall not exceed 50% of the price of the final product. in above mentioned framework, materials, classified in the same heading as a product, can be used if the cost of used materials does not exceed 5% of the price of the final product.
8425- 8428	lifting, handling, loading or unloading machinery	Production when the costs of all used materials does not exceed 50% of the price of the final product.
8429	Self-propelled bulldozers, angledozers, graders, levelers, scrapers, mechanical shovels, excavators, shovel loaders, tamping machines and road rollers:	Production when the costs of all used materials shall not exceed 50% of the price of the final product. in above mentioned framework, materials of heading 8431 can be used if the cost of used materials does not exceed 5% of the price of the final product.
8430	Other moving, grading, leveling, scraping, excavating, tamping, compacting, extracting or boring machinery, for earth, minerals or ores; pile-drivers and pile-extractors; snowplows and snowblowers:	Production when the costs of all used materials shall not exceed 50% of the price of the final product. in above mentioned framework, materials of heading 8431 can be used if the cost of used materials does not exceed 5% of the price of the final product.
8431	Parts suitable for use solely or principally with the machinery of headings 8425 – 8430	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8444 00- 8447	Machines for textile industry	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8448	Auxiliary equipment for machines of heading 8444 00- 8447.	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8452	Sewing machines, other than book-sewing machines of heading 8440; furniture, bases and covers specially designed for sewing machines; sewing machine needles; parts thereof	Production when the costs of all used materials shall not exceed 50% of the price of the final product.

<b>CIS Code of ТН ВЭД</b>	<b>Name of Goods</b>	<b>Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries</b>
<b>1</b>	<b>2</b>	<b>3</b>
8456 -8466	Machines and equipment of 8456-8466 headings and accessories suitable for use solely or principally with the machines of headings 8456 to 8466	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8469 -8472	Machines (for example Type-writers, calculators, duplicating and stitching machines) except products of heading 8471	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8480	Molding boxes for metal foundry; mold bases; molding patterns; molds for metal (other than ingot molds), metal carbides, glass, mineral materials, rubber or plastics	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8484	Gaskets and similar joints of metal sheeting combined with other material or of two or more layers of metal; sets or assortments of gaskets and similar joints, dissimilar in composition, put up – in pouches, envelopes or similar packings; mechanical seals	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8485	Machinery parts, not containing electrical connectors, insul-ators, coils, contacts or other electrical features, and not specified or included elsewhere in this chapter:	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8500	Electric machines and equipment, their parts, Sound recording and sound reproducing equipment, equipment for recording and reproducing of TV pictures and sound, their parts and belongings, except the goods of the following heading, the rules of application of which are given below: 8501, 8502, 8507, ex 8518, 8519-8521, 8523-8528, 8535-8537, 8542, 8544,8545	Production when the costs of all used materials shall not exceed 50% of the price of the final product. in above mentioned framework, materials of same heading as a product, can be used if the cost of used materials does not exceed 10% of the price of the final product.
8501	Electric motors and generators (except generator settings)	Production when the costs of all used materials shall not exceed 50% of the price of the final product. in above mentioned framework, materials of heading 8503 can be used if the cost of used materials does not

CIS Code of ТН ВЭД	Name of Goods	Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries
1	2	3
		exceed 10% of the price of the final product.
8502	Electric generating sets and rotary converters	Production when the costs of all used materials shall not exceed 50% of the price of the final product. in above mentioned framework, materials of heading 8501 or 8503 can be used if the cost of used materials does not exceed 10% of the price of the final product.
8507	Electric storage batteries, including separators therefor, rectangular (including square); and other forms.	Production from any materials of any headings. But the costs of used materials of same heading as final product shall not exceed 50% of the price of the final product.
from 8518	Microphones and stands therefor; loudspeakers, whether or not mounted in their enclosures; electric sound	Production when the costs of all used materials shall not exceed 50% of the price of the final product. in above mentioned framework,
	amplifier sets of low frequency;	materials of heading 8501 or 8503 can be used if the cost of used materials does not exceed 10% of the price of the final product.
8519	Turntables, (sound boards) record players, cassette players and other sound reproducing apparatus, not incorporating a sound recording device	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8520	Magnetic tape recorders and other sound recording apparatus, whether or not incorporating a sound reproducing device	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8521	Video recording or reproducing apparatus; whether or not incorporating a video tuner	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8523	Ready unrecorded media for sound recording or similar recording of other phenomena, other than products of chapter 3700	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8524	Records, tapes and other recorded media for sound or other similarly recorded phenomena, including matrices and masters for the production' of records, but excluding products of chapter 37	Production when the costs of all used materials shall not exceed 50% of the price of the final product. in above mentioned framework, materials of heading 8523 can be used if the cost of used materials does not exceed 10% of the price of the final product
8525	Transmission apparatus for	Production when the costs of all used

CIS Code of ТН ВЭД	Name of Goods	Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries
1	2	3
	radiotelephony, diotelegraphy, radiobroadcasting or television, whether or not incorporating reception apparatus or sound recording or reproducing apparatus; television cameras; still image video cameras or other video camera recorders	materials shall not exceed 50% of the price of the final product.
8526	Radar apparatus, radio navigational aid apparatus and radio remote control apparatus.	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8527	Reception apparatus for radiotelephony, radiotelegraphy or radiobroadcasting, whether or not combined, in the same housing, with sound recording or reproducing apparatus or a clock	Production when the costs of all used materials shall not exceed 50% of the price of the final product. in above mentioned framework, materials of heading 8529 can be used if the cost of used materials does not exceed 10% of the price of the final product.
8528	Reception apparatus for television, whether or not	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
	incorporating radiobroadcast receivers or sound or video recording or reproducing apparatus; video monitors and video projectors: Reception apparatus for television, whether or not incorporating radiobroadcast receivers or sound or video recording or reproducing apparatus	in above mentioned framework, materials of heading 8529 can be used if the cost of used materials does not exceed 5% of the price of the final product.
8535,8536	Electrical apparatus for switching or protecting electrical circuits, or for making connections to or in electrical circuits for a voltage not exceeding 1,000 V and exceeding 1,000 V.	Production when the costs of all used materials shall not exceed 50% of the price of the final product. in above mentioned framework, materials of heading 8538 can be used if the cost of used materials does not exceed 5% of the price of the final product.
8537	Boards, panels, consoles, desks, cabinets and other bases, equipped with two or more apparatus of heading 8535 or 8536, for electric control or the distribution of electricity, including those incorporating instruments or apparatus of chapter 90, and numerical control apparatus other than switching apparatus of heading 8517	Production when the costs of all used materials shall not exceed 50% of the price of the final product. in above mentioned framework, materials of heading 8538 can be used if the cost of used materials shall not exceed 5% of the price of the final product.

CIS Code of ТН ВЭД	Name of Goods	Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries
1	2	3
8542	Electronic integrated circuits and micro assemblies	Production when the costs of all used materials shall not exceed 50% of the price of the final product. in above mentioned framework, materials of heading 8541 or 8542 can be used if the cost of used materials does not exceed 5% of the price of the final product.
8544	Insulated (including enameled or anodized) wire, cable (including coaxial cable) and other insulated electrical conductors, whether or not fitted with connectors; optical fiber cables, made up of individually sheathed fibers, whether or not assembled with electric conductors or fitted with connectors	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8545	Carbon electrodes, carbon brushes, lamp carbons, battery carbons and other articles of graphite or other carbon, with or without metal, of a kind used for electrical purposes	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8601-8607	Rail locomotives, railway and tramcars or other rolling-stocks and their parts.	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8608 00	Railway or tramway track fixtures and fittings; mechanical (including electro-mechanical) signaling, safety or traffic control equipment for railways, tramways, roads, inland waterways, parking facilities, port installations or airfields; parts of the foregoing	Production when the costs of all used materials shall not exceed 50% of the price of the final product. in above mentioned framework, materials of same heading as a product, can be used if the cost of used materials does not exceed, 5% of the price of the final product.
8609 00	Containers (including containers for the transport of fluids) specially designed and equipped for carriage by one or more modes of transport	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8700	Land transport and their equipment and parts, except product of headings 8702-8704, the rules of application of which are given below.	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
8702-8704	Motor cars and other motor vehicles principally designed for the transport of people including station wagons and	Production when the costs of the used units and parts shall not exceed 50% of the price of the final product, also when execute following technological

CIS Code of TH ВЭД	Name of Goods	Terms, production and technological operations, necessary for granting goods the status of origin under the use in manufacture of goods of the third countries
1	2	3
	racing cars, lorries:	operation: - production and colouring of body (cob); - mounting and attaching of an engine, connecting up of mechanisms of driving to the engine; - installation of radiators and connecting up of cooling system; - attaching of shock-absorbers, connecting up of transmission; - installation of front suspension bracket and half-axle, installation of back suspension bracket; - connection of steering gear with hubs of front wheels; - installation of wheels and regulation of tightening of front hub bearing, installation of ignition coil; - refuelling and pumping of steering gear hydrosystem, brake-system; hydro-clutch; - installation and connecting up of headlights; front and back signal lights; - installation of mufflers and section of exhaust piping; - installation of fuel tank and connectivity up of fuel piping; - installation of generator and regulation of stretch of driving belt; - installation and connecting up of accumulator with checking of work of board electric circuits; - diagnostics and regulation of an engine; - checking of efficiency of brake-system; - conservation of easily damaged places; - elimination of defects of the assembling. - plotting of identification number on plate and autocar, - running in of a car.
8803	Parts of aircraft's of heading 8801 or 8802.	Production when the costs of all used materials of heading 8803 shall not exceed 5% of the price of the final product.
8804 00 000	Parachutes (including dirigible parachutes and paragliders) and rotochutes; parts thereof and accessories thereto - rotochutes;	Production of materials of any headings, including other materials of heading 8804 00 000 Production, when the costs of all used materials of heading 8804 00 000

	- Others	shall not exceed 5% of the price of the final product.
8805	Aircraft launching gear; deck-arrestor or similar gear; ground flying trainers; parts of the foregoing.	Production when the costs of all used materials of heading 8805 shall not exceed 5% of the price of the final product.
89 00	Vessels, ships and other floating facilities	Production when the costs of all used materials shall be classified in the heading other than heading of product. But hulls (for vessels) of heading 8906 00 can not be used.
90 00	Optical, photographic, cinematographic, measuring, control, precision, medical and surgical instruments and facilities, their parts and belongings	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
91 00	All kind of watches and their parts.	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
92 00	Musical instruments; Their parts and accessories.	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
93 00	Military weapon and ammunition; Their parts and accessories.	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
9401	Seats (other than those of heading N° 9402), whether or not convertible into beds, and parts thereof	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
9403	Other furniture and parts thereof	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
9405	Lamps and lighting fittings including searchlights and spotlights and parts thereof, not elsewhere specified or included; illuminated signs, illuminated name-plates and the like, having a permanently fixed light source, and parts thereof not elsewhere specified or included	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
9406 00	Prefabricated buildings	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
9503	Other toys; reduced-size ("scale") models and similar recreational models, working or not; puzzles of all kinds	Production when the costs of all used materials shall be classified in heading other than heading of product, the costs of all used materials shall not exceed 50% of the price of the final product.

<b>1</b>	<b>2</b>	<b>3</b>
from 9602 00 000	Articles for carving from materials of organic, vegetable and mineral origin;	Production from finished materials for carving of same headings.
from 9603	Brushes (excluding brushes for floor and brooms hafted or not hafted), hand-operated mechanical floor sweepers, not motorised, paint pads and rollers;	Production when the costs of all used materials shall not exceed 50% of the price of the final product.
9605 00 000	Travel sets for personal toilet, sewing or shoe or clothes cleaning	Each ware in the set must comply with requirements, applicable to it. But articles without origin maybe included into the set provided that their total cost does not exceed 15% of the price of the final product.
9606	Buttons, press-fasteners, snap- fasteners and press-studs, button moulds and other parts of these articles; half-finished button	Production when the costs of all used materials shall be classified in heading other than heading of product. The costs of all used materials shall not exceed 50% of the price of the final product.
9608	Ball point pens; felt tipped and other porous-tipped pens and markers; fountain pens, stylograph pens and other pens; duplicating stylos; propelling or sliding pencils; pen- holders, pencil-holders and similar holders; parts (including caps and clips) of the foregoing articles, other than those of heading 96.09	Production from materials of heading other than heading of product. but the plumage and end cap for plumage can be used as other materials of same heading as a product, which can be used if cost of it does not exceed 5% of the price of the final product.
9614 20	Smoking pipes and pipe bowls	Production from crude tube blanks
