STATISTICAL REPORT FOR 2001 ON PUBLIC PROCUREMENT ACCORDING TO THE AGREEMENT ON GOVERNMENT PROCUREMENT

NORWAY

The following communication contains the Norwegian statistical report on public procurement for 2001. The report shows the value of public contracts subdivided by type (supplies, works or services) and by procedure (open, restricted and negotiated). There are also indications on nationality of the suppliers and products. A listing by CPV numbers on a two-digit level is also included in the statistical report presented.

The statistical material is based on information from TED (Tenders Electronic Daily) where 218 contract awards with a total value of Nkr 6,690 million were found. The statistical material indicates that about 2.6 per cent of the contracts were awarded to foreign suppliers. The actual figure is, however, higher because of the number of Norwegian suppliers that are subsidiaries of foreign companies, or agents for foreign companies is unknown.

I. BACKGROUND

This Statistical Report on Public Procurement under the Agreement on Government Procurement (GPA) includes the number and value of contracts awarded by each contracting authority above threshold in 2001, divided into two groups: classical sector and utility sector. The classical sector includes procuring entities listed in Annexes 1 and 2 to the GPA. The utility sector includes procuring entities listed in Annex 3 to the GPA.

The report is divided by CPV codes and type of procurement (supplies, services and works). Each type of procurement is further subdivided by procedure and with indication of product and nationality of the supplier to whom the contract was awarded as far as the source material permits.

II. METHOD

Contracting authorities that have awarded a contract above the threshold shall make results known by means of a notice published in the Official Journal of the European Commission and in the Tenders Electronic Daily (TED) database. In order to present all contracts awarded in Norway in 2001, a search for tenders from the internet site: <http://ted.eur-op.eu.int/static/home/en/> was made. From this site, the data was exported and prepared into MS Excel.

All contracts awarded in 2001 were divided as follows:

- | | |
|----------------------------------|-------------------|
| • Supply contracts | Listed in Annex 1 |
| • Service contracts | Listed in Annex 2 |
| • Works contracts | Listed in Annex 3 |
| • Classical sector by CPV Number | Listed in Annex 4 |
| • Utilities sector | Listed in Annex 5 |
| • Utilities sector by CPV Number | Listed in Annex 6 |
| • Nationality of suppliers | Listed in Annex 7 |

1. Total

This statistical report covers 218 contract awards with a total value of Nkr 6,690 million.

Of the 218 contract awards, there were:

- 104 supply contracts, with a total contract value of Nkr 3,253 million
- 83 service contracts, with a total contract value of Nkr 2,385 million
- 37 works contracts, with a total contract value of Nkr 1,089 million
- 35 utilities contracts, with a total contract value of Nkr 834 million.

2. Supply contracts (Annex 1)

The 104 supply contract awards given by 49 contracting authorities had a total value of Nkr 3,253 million. Approximately 4.2 per cent of the contracts were awarded directly to foreign suppliers. Suppliers' nationalities are listed in Annex 7.

Of the supply contracts, 83 contracts were awarded by open procedure, accounting for 86 per cent of the value of supply contracts; nine contracts were awarded by restricted procedure, accounting for 1 per cent of the value of supply contracts; and 18 contracts were awarded by negotiated procedure, accounting for 13 per cent of the value of supply contracts.

3. Service contracts (Annex 2)

A total of 36 contracting authorities awarded 83 service contracts with a total value of Nkr 2,385 million. Approximately 0.4 per cent of the contracts were awarded directly to foreign suppliers. Suppliers' nationalities are listed in Annex 7.

Of the 83 contracts, 37 contracts were awarded by open procedure, representing 13 per cent of the total value of service contracts; 10 contracts were awarded through restricted procedure, accounting for 16 per cent of the value of service contracts; and 36 contracts were awarded through negotiated procedure, accounting for 71 per cent of the value of service contracts.

4. Works contracts (Annex 3)

A total of 20 contracting authorities awarded 37 works contracts with a total value of Nkr 1,089 million. Approximately 2.7 per cent of the contracts were awarded directly to foreign suppliers. Suppliers' nationalities are listed in Annex 7.

Of the 37 contracts, 29 contracts were awarded by open procedure, representing 93 per cent of the total value of works contracts; two were awarded through restricted procedure, accounting for 3 per cent of the value of works contracts; and six contracts were awarded through negotiated procedure; accounting for four per cent of the value of works contracts.

5. Utility contracts (Annexes 5 and 6)

The 35 utility contract awards published in TED were awarded by 17 contracting authorities, and have a total value of Nkr 824 million. Eight contracts were awarded using open procedure and accounts for 21 per cent of the total number. Restricted procedure was used in four cases, consisting of 17 per cent of the total value, and 23 contracts were awarded using the negotiated procedure, representing 62 per cent of the total value of the contracts awarded.

III. COMMENTS

1. Supplier nationality

Many contract awards have more than one supplier, and some of the contracts have more than one nationality of suppliers. In the statistics, all nationalities have been noted regardless of how large a part they were awarded respectively.

Only a small percentage of the contracts in the classical sector were awarded to suppliers with a foreign postal address. This figure is, however, somewhat misleading considering the number of Norwegian suppliers who are subsidiaries of foreign companies or agents for foreign suppliers.

2. Public works contracts under threshold

Many of the public works contracts published in TED are below the thresholds as they are part of a larger project. There is usually no indication in the notice in TED as to which main project these contract awards belong to, or whether the subcontract is included in the main project or not.

3. Prices and estimated value

All prices are given in Norwegian kroner (Nkr), excluding "Merverdi avgift" (VAT).

Some contract awards do not state the price. Contracting authorities in the utilities sector are not obliged to state the contract value in post contract award notices. Contracting authorities in the classical sector may postpone publishing the contract value to guard commercial interests.

4. Listing of contracts by CPV number

Of the contracts awarded by the classical sector, all contracts were not assigned to a CPV number. Thus, the summing of contracts in Annex 4 will not add up completely with the total number of contracts reported in Annexes 1 to 3.
