

ACCESSION OF UKRAINE

Additional Questions and Replies

Corrigendum

Page 13, Question 31, paragraphs 1 and 2 should read:

Question 31

(Question 6(IX) - page 9). The response, which refers to Reply 1, which provides a brief description of each licensing system, does not indicate if licenses are issued automatically. Could Ukraine state whether licenses are issued automatically?

Answer:

Import licensing in Ukraine does not have quantitative restrictions, thus it is not subject to quotas, is automatic, which does not contradict to the Article 3 of the Agreement on Import Licensing Procedure of the Uruguay Round, because it does not apply any quantitative restrictions to any country of the world. Thus, licenses are issued automatically.
