## **MOORE OFFERS CONDOLENCES TO PEOPLE OF INDIA**

Director-General Mike Moore today offered his condolences to the people of India following the attack yesterday on Parliament House in which terrorists killed seven people.

"This attack in New Delhi is an attack not just on the country of India but on humanity itself. Acts such as this achieve nothing and run sharply counter to all decent and moral methods of expressing disagreement.

I offer my most sincere condolences to the people of India and especially to the families of those who have lost loved ones. Our thoughts and prayers this day are with India and her citizens."
