* The symbol (R) is used if an investigation is opened in the context of a review of an existing anti-dumping measure, or after an allegation of a breach of an undertaking.

** Trade volume is based on statistical data for the latest available calendar year prior to initiation. The data on trade volume are for the total trade volume of the products subject to the measure and from the country or customs territory under investigation. Percentage or amount per unit as appropriate.

*** Imports during the period under investigation as percentage of domestic consumption during the same period.

CI = Confidential information.

n.a = Not available.

Basis for determination codes:

HM - Home market price
 TM - Third country price (specify country)
 FA - Facts available
 CV - Constructed value
 SP - Prices charged by same producer

OP - Prices charged by other producer
 OPT - Prices charged by other producer in third country
 OCT - Costs of other producer in third country
 O - Other basis (specify)
 LDC - Treatment having regard to Article 15 of the Agreement

¹ Threat of injury caused by future imports from Brazil after two Brazilian firms had won a tender from the Mexican Government.

² The assessment of the anti-dumping duty was modified by a clarification of the preliminary determination published in the Official Journal on 16.6.99.

³ An ex officio investigation was initiated to examine imports from Degussa Corporation and Solray Interlox.

⁴ The application for the review procedure was submitted by FMC Corporation.

Reporting County: Mexico
