## **NOTIFICATION**

### Addendum

The following communication, dated 28 August 2000, has been received from the United States.

---

The Animal and Plant Health Inspection Service (APHIS) is reopening and extending the comment period for the proposed rule (notified as G/SPS/N/USA/267) that would amend the fruit and vegetable import regulations to allow Fuji variety apples grown in certified orchards within approved production areas in the Republic of Korea to be imported into the United States without treatment, under certain conditions designed to mitigate pest risk. This action will allow interested persons additional time to prepare and submit comments.

Comments must be received by EPA on or before 23 October 2000. Instructions for commenting are in the full text of this addendum and the original proposal which are available from the U.S. SPS Enquiry Point.
