1994

I. Milk

A. Production and Utilization of Milk

('000 metric tons)

	Year	Quantity
Total production (cow, buffalo and sheep milk)	1994	5,522.6
Utilization on the farm	1994	821.6
Deliveries to dairies	1994	864.2
Consumption in the form of fresh products	1994	
Industrial uses	1994	

Note: As the quantities were given by the producers in hectolitres, for transformation into tons the following method was used:

10 hl of cow and buffalo milk = 1.031 tons;

10 hl of sheep milk = 1.033 tons.
