"THE WTO DISPUTE SETTLEMENT PROCEDURES"

NEW PUBLICATION

The WTO today (Thursday 14 September) published a collation of all the provisions related to the settlement of disputes under the WTO Agreement. The publication provides a compact compendium of the rules and procedures of the new integrated dispute settlement system. All the provisions have been brought together and grouped by subject-matter. Brief notes in the margin, cross-references and a comprehensive, alphabetical subject-index make this publication a valuable and easy-to-use reference book.

The "WTO Dispute Settlement Procedures - A collection of the Legal Texts" is currently available in English and can be ordered from the WTO Secretariat at a cost of SF 30.- French and Spanish language versions will be available in the near future.
