Information on operational changes in measures

Australia has implemented the Ministerial decision made at the 2015 Ministerial Conference in Nairobi to eliminate all export subsidy entitlements. Notification of the amendment to Australia's GATT Schedule of Concessions was circulated in G/MA/TAR/RS/454 on 22 February 2017. Australia's new schedule was certified as of 22 May 2017 in WT/LET/1262. Accordingly, Australia confirms it has not provided agricultural export subsidies.

Information on operational changes in measures

In accordance with the Nairobi Decision on Export Competition (WT/MIN(15)/45 and WT/L/980), Canada eliminated its export subsidies on wheat and wheat flour, coarse grains, oilseeds, vegetable oils, oilcakes and vegetables as of 1 January 2016. Canada's export subsidies on butter, skim milk powder, cheese and other milk are subject to new commitment levels and will be eliminated by the end of 2020. Canada's Uruguay Round export subsidy commitments for dairy products are based on a dairy year while the commitments under the Nairobi Decision are on based on a calendar year. This results in an overlap between the two types of years. The first portion of the 2015-2016 dairy year (1 August 2015 to 3 December 2015) fell under the Uruguay Round commitments and the second portion (1 January 2016 to 31 July 2016) under the Nairobi commitments. The quantity limits shown in the table below represent the quantity limits for the first partial year (1 January 2016 to 31 July 2016) implementation of the Nairobi and the full Nairobi commitment for the marketing year 2016 (1 August 2016 – 31 July 2017).

Colombia

Information on operational changes in measures

In compliance with the provisions of the Ministerial Decision on Export Competition (WT/MIN (15)/45 and WT/L/980), Colombia circulated on 22 June 2018 to all WTO Members in document G/MA/TAR/RS/566 a project with the modifications and rectifications of Schedule LXXVI.

Since no objections were made within three months of the distribution of this project, the WTO Director-General certified the true copy of the modifications and rectifications of the LXXVI list (WT/Let/1411 document), effective 22 September 2018.

In this sense, the National Government and the Ministry of Agriculture and Rural Development of Colombia are complying and will continue to comply with the Decision not to grant export subsidies to agricultural products.

Information on operational changes in measures

Based on the Nairobi Ministerial Decision on export competition of 19 December 2015, the Norwegian Government modified the schedule for export subsidies for agricultural products. The schedule has been submitted to the WTO Secretariat and approved, as informed in the reply from Norway on the questionnaire on export competition in March 2018. The new commitments are also reflected in the Norwegian notifications on export subsidies G/AG/N/NOR/98 and G/AG/N/NOR/99 for the calendar year 2017. There have been no further operational changes in these measures since the last notification.

Switzerland–Liechtenstein

Information on operational changes in measures

Until the end of 2018, Switzerland paid export subsidies on processed agricultural products falling within Chapters 15 to 22 of the Customs Tariff. Through the implementation of the Nairobi Ministerial Decision (WT/MIN(15)/45 - WT/L/980), Switzerland revised its relevant legislation³ and eliminated all export subsidies as from 1 January 2019.

In accordance with the Nairobi Ministerial Decision, Switzerland and Liechtenstein have amended Schedule of Commitments LIX (WT/LET/1385).
