NOTIFICATION*Addendum*

The following communication, dated 20 November 2019, is being circulated at the request of the delegation of Costa Rica.

RTCA No. 75.01.20:04: Petroleum products. Premium petrol. Specifications

On 7 December 2004, the Government of the Republic of Costa Rica notified, in document G/TBT/N/CRI/21, draft Central American Technical Regulation (RTCA) No. 75.01.20:04: "Petroleum products. Premium petrol. Specifications".

The notified Technical Regulation establishes the physico-chemical requirements to be met by premium petrol for use in motor vehicles. It applies to the petroleum derivative known as premium petrol, which is formed from a complex mixture of different types of hydrocarbons (paraffinic, naphthenic, olefinic and aromatic) with a distillation (boiling) range of between 30°C and 225°C.

The purpose of the present Addendum is to notify WTO Members that this Technical Regulation has been updated and that there will be a comment and observation period of 60 days as from the date of this notification.

The document is available for consultation at:
