6. Description of content: This Pakistan Standards Specification was adopted by the Pakistan Standards Institution on 1999 after the draft finalized by the rubber and rubber products had been approved by the Chemical Divisional Council. While the preparation of this standard the views of producers, consumers and technologist have been taken into consideration by the Sectional Committee as also existing trade practice in this field and in the country. Acknowledgement is made of the assistance derived from ISO on the subject.
7. Objective and rationale, including the nature of urgent problems where applicable: This Pakistan Standard specifies requirements for packaged sterile, or bulked non-sterile, rubber gloves intended for use in medical examination and diagnostic or therapeutic procedures to protect the patient and the user from cross-contamination. It also covers rubber gloves intended for use in handling contaminated medical materials. This standard applies to single-use gloves that fit either hand, paired gloves or gloves by size. It covers gloves with smooth surface or with textured surfaces over part or the entire glove.; Protection of human health or safety
